Mark Ungeitis

Software Engineer

Liepaja, Latvia

Summary

I am a dedicated and skilled Frontend Developer with over 3 years of hands-on experience in developing front-end web applications. My expertise lies in utilizing React and Redux to manage state efficiently, as well as creating visually appealing designs using Figma.

Currently, I am pursuing a degree in Mechatronics at LVT, which has provided me with a solid foundation in both software and hardware engineering principles. My multilingual abilities in Russian, Latvian, and English allow me to communicate effectively with diverse teams and clients.

In my role at Fon Control Group, I have honed my skills in frontend development, contributing to the success of various projects by delivering high-quality, responsive interfaces. I am passionate about continuous learning and staying updated with the latest industry trends to provide innovative solutions.

Experience

EPAM Systems

Software Engineer

August 2024 - Present (3 months)

Riga, Latvia
